

THIS LETTER IS FOR

Isuzu D-Max

2024 on (facelift) · dual cab

The facelift canopy, roof rails and gullwing

WHICH ONE IT IS

Which D-Max is it?

Two generations, two canopies. The pictures tell them apart in a second; the ticked one is the one this letter is for.

01 Which D-Max is it? Look at the tailgate.

✓ The facelift, sold from May 2024

A plain tailgate with a small badge and three-tier tail lights

The earlier one

ISUZU in large letters across the tailgate and two-piece tail lights

That is the earlier D-Max. It takes a different Bushtech canopy, which is not sold in Australia yet.

02 Is it a pick-up with the factory tub, or a cab-chassis with a tray?

✓ Factory tub

Cab-chassis with a tray

A tray takes a tray canopy. This canopy mounts to the factory tub.

Not sure? Send a photograph of the tailgate and the tub with your reply and we confirm it before the day.

ISUZU D-MAX · BEFORE THE DAY

Before it is fitted

03 What is in the tub?

✓ Nothing, or a spray-in liner

A drop-in plastic liner

A drop-in liner is removed, or cut where the mounting brackets sit, so the canopy seals on the tub.

WHAT COMES OFF

✓ An X-Terrain's roller shutter and sailplane come off before the canopy goes on.

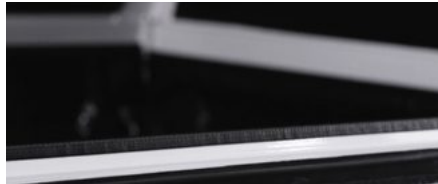

ON THE DAY

Clamped to the tub

No drilling. The clamps sit on the tub rail, which is why a liner or a trim in the way matters.

Sealed on the rail

Pinch weld and a base rubber all the way round. The dust stays outside.

Off again, clean

Two people and about half an hour. The ute is as it was for resale.

BEFORE THE DAY, WE ASK

01

Which D-Max is it?

02

Is it a pick-up with the factory tub, or a cab-chassis with a tray?

03

What is in the tub?

Fitting takes about two hours, wherever it is fitted. Send the answers above with your reply and we confirm the fit before it ships.
