

THIS LETTER IS FOR

Ford Ranger Next-Gen

2022 on · dual cab

Next-Gen Ranger with the canopy

WHICH ONE IT IS

Is it this ute?

The canopy is built to the factory tub. Check the body first, then what the maker asks of every Ranger Next-Gen.

01 Is it a pick-up with the factory tub, or a cab-chassis with a tray?

✓ Factory tub

Cab-chassis with a tray

A tray takes a tray canopy. This canopy mounts to the factory tub.

02 When was it built? It is on the build plate, or a Ford dealer can read it from the VIN.

✓ November 2024 or later

Before November 2024

Ford requires its J-Brace load box reinforcement on any Ranger carrying a canopy (this one weighs 70 kg). A Ford dealer fits part AMN1WJ27726AA, about A\$190 to A\$250 plus fitting, before the canopy goes on. Keep the receipt for Ford's warranty.

It is a Raptor

A Raptor built before September 2024 needs Ford's J-Brace part AMN1WJ27726BA fitted first. Confirm the fit with us before ordering.

Not sure? Send a photograph of the tailgate and the tub with your reply and we confirm it before the day.

FORD RANGER NEXT-GEN · BEFORE THE DAY

Before it is fitted

03 What is in the tub?

✓ Nothing, or a spray-in liner

A drop-in plastic liner

A drop-in liner is removed, or cut where the mounting brackets sit, so the canopy seals on the tub. The dust kit needs the plastic liner out altogether.

WHAT COMES OFF

- ✓ A Wildtrak's sailplane and roller cover come off, and Ford's plastic tub side covers go on first: they are not under the sailplane and are a separate Ford part to order ahead.
- ✓ The side plastic trims come off for the fitting; the rear tailgate trim stays on.
- ✓ Allow three to four hours for the fitting: the factory tie-down points are thread-locked and take time to remove.

ON THE DAY

Clamped to the tub

No drilling. The clamps sit on the tub rail, which is why a liner or a trim in the way matters.

Sealed on the rail

Pinch weld and a base rubber all the way round. The dust stays outside.

Off again, clean

Two people and about half an hour. The ute is as it was for resale.

BEFORE THE DAY, WE ASK

01

Is it a pick-up with the factory tub, or a cab-chassis with a tray?

02

When was it built?

03

What is in the tub?

Fitting takes about three to four hours, wherever it is fitted. Send the answers above with your reply and we confirm the fit before it ships.

FORD RANGER NEXT-GEN · ACCESSORIES

What goes with what

Drop-down table, Ranger version

Hangs from a hook plate on the subframe, so it has one position. The kettle comes out of the kitchen insert to fit it.

HOOK PLATE

4-person kitchen insert

Standard or shallow cupboard, either one.

✓ FITS

Carpeted cupboard, 42.5 cm

Standard holds more. Shallow when a drawer system or fridge is in the tub.

✓ CHOOSE DEPTH

Fold-out table with cutting board

Takes most of the cupboard.

✗ NOT WITH THE KITCHEN INSERT

Ammo box holder rail

Rifle boxes, the pantry slider and the jerry can holder all hang from it.

NEEDED FOR THE BOXES

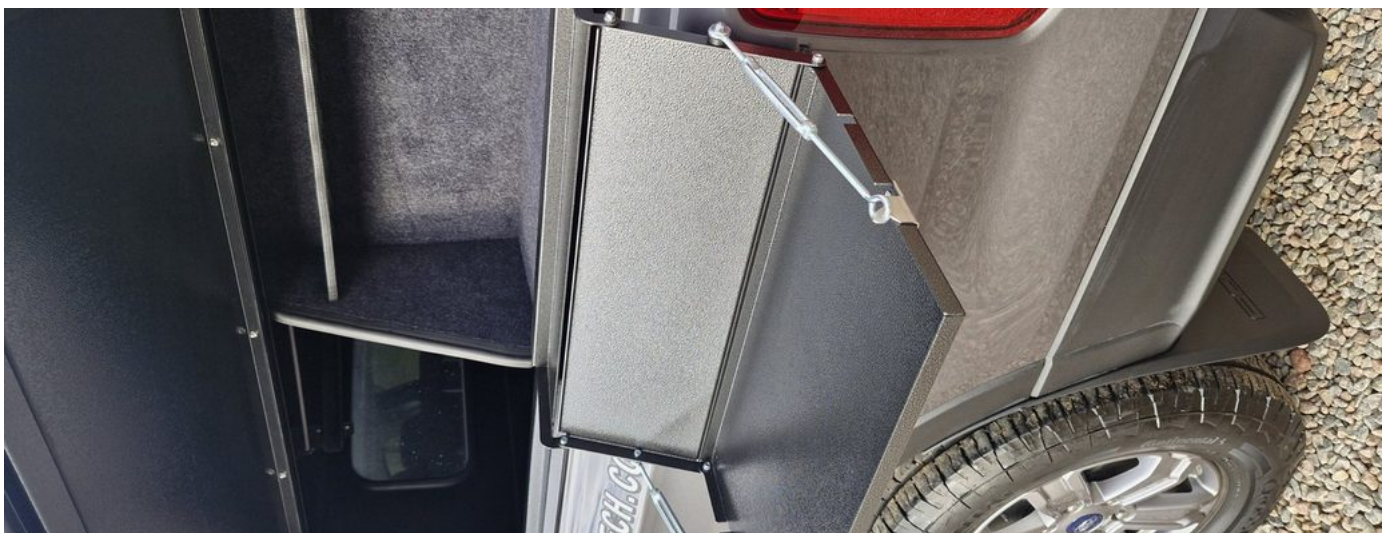

Canvas bag with pouches

Back of the carpeted cupboard.

✗ NOT WITH FULL DRAWERS

ALSO

- Side sliding windows sit over the cupboard and restrict it.
- Air vents on the cab-side door or the roof; not the roof with a rack.
- Rifle boxes: 21 cm deep with the drawer system, 21 or 25 cm without.
- Clamps take standard ammo boxes only, and not on the carpeted boards.
- Dust kit needs the plastic liner out of the tub.
- 3-LED kit quoted; National Luna upgrade available.
- Jerry cans: water inside the tub, fuel outside.
- Drop-down table bag is supplied loose with a full drawer set-up.
