

THIS LETTER IS FOR

Toyota Hilux Revo

2015-current · double cab

WHICH ONE IT IS

Which Hilux is it?

Two generations, two canopies. The pictures tell them apart in a second; the ticked one is the one this letter is for.

01 Which Hilux is it?

✓ Revo (N80), 2015 to 2026

Travo (N90), from 2026

The Travo takes its own canopy. Choose the Hilux Travo.

02 Is it a pick-up with the factory load bin, or a cab-chassis with a tray?

✓ Factory load bin

Cab-chassis with a tray

A tray takes a tray canopy. This canopy mounts to the factory load bin.

Not sure? Send a photograph of the tailgate and the load bin with your reply and we confirm it before the day.

TOYOTA HILUX REVO · BEFORE THE DAY

Before it is fitted

03 Is the load bin the standard one?

✓ Standard load bin

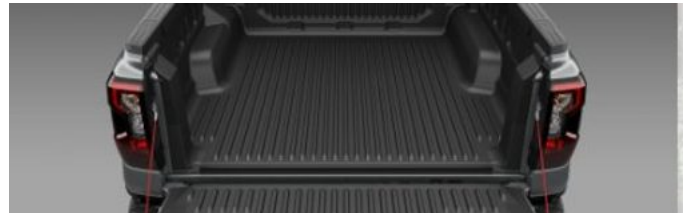

SR, Mine Spec, J-Deck or another non-standard load bin

We confirm non-standard load bins with the factory before we confirm the fit.

04 What is in the load bin?

✓ Nothing, or a spray-in liner

A drop-in plastic liner

A drop-in liner is removed, or cut where the mounting brackets sit, so the canopy seals on the load bin.

WHAT COMES OFF

✓ Not compatible with styling bars or roll bars.

ON THE DAY

Clamped to the load bin

No drilling. The clamps sit on the load bin rail, which is why a liner or a trim in the way matters.

Sealed on the rail

Pinch weld and a base rubber all the way round. The dust stays outside.

Off again, clean

Two people and about half an hour. The bakkie is as it was for resale.

BEFORE THE DAY, WE ASK

01

Which Hilux is it?

02

Is it a pick-up with the factory load bin, or a cab-chassis with a tray?

03

Is the load bin the standard one?

04

What is in the load bin?

Fitting takes about two hours. Bring the answers above, or send them with your reply, and the bay is ready when you arrive.
