

THIS LETTER IS FOR

Toyota Hilux Vigo

2005-2015 · double cab

WHICH ONE IT IS

Is it this bakkie?

The canopy is built to the factory load bin. Check the body first, then what the maker asks of every Hilux Vigo.

01 Is it a pick-up with the factory load bin, or a cab-chassis with a tray?

✓ Factory load bin

Cab-chassis with a tray

A tray takes a tray canopy. This canopy mounts to the factory load bin.

02 What is in the load bin?

✓ Nothing, or a spray-in liner

A drop-in plastic liner

A drop-in liner is removed, or cut where the mounting brackets sit, so the canopy seals on the load bin.

Not sure? Send a photograph of the tailgate and the load bin with your reply and we confirm it before the day.

TOYOTA HILUX VIGO · BEFORE THE DAY

Before it is fitted

WHAT COMES OFF

✓ Not compatible with styling bars or roll bars.

ON THE DAY

Clamped to the load bin

No drilling. The clamps sit on the load bin rail, which is why a liner or a trim in the way matters.

Sealed on the rail

Pinch weld and a base rubber all the way round. The dust stays outside.

Off again, clean

Two people and about half an hour. The bakkie is as it was for resale.

BEFORE THE DAY, WE ASK

01

Is it a pick-up with the factory load bin, or a cab-chassis with a tray?

02

What is in the load bin?

Fitting takes about two hours. Bring the answers above, or send them with your reply, and the bay is ready when you arrive.
